

SUMMER CAMP 21

ENRICHMENT DESCRIPTIONS

ENRICHMENT	DESCRIPTION
STEM COURSES	<p>Join us every Monday as we explore many facets of science, technology, engineering and mathematics. We've partnered with a local company to design a curriculum to enhance your child's summer camp experience.</p> <p>XL Campers will take part in a 45 minute rotation every Monday in an entertaining age-appropriate course that will enrich their minds and be sure to keep them at the top of their game when school starts again!</p>
SPANISH LESSONS	<p>Each Wednesday our campers will have the opportunity to either learn Spanish or improve their current language skills with their peers. Our instructors will have fun games and activities planned each Wednesday for a 45 minute rotation.</p> <p>At the end of the summer, we expect our XL Campers to have amplified their fluency and enjoy the ability to communicate even more than they could at the end of the school year.</p>
